

Eagle Eye Partnership

Alibi Cloud VS solutions are powered by Eagle Eye Networks, a global leader in cloud video surveillance.

Why Eagle Eye?

Founded in 2012, Eagle Eye Networks has established itself as a global leader in cloud-based video surveillance, and has set industry standards for cyber-security of storing and managing data “in the cloud.” A full-service company, Eagle Eye has simplified the deployment and management of cloud security solutions, offering unparalleled flexibility with the ability to add cameras across single-or multiple locations, and change storage options on-demand.

Partners in the Cloud

Alibi Security has partnered with Eagle Eye to develop a custom camera-to-cloud surveillance solution, eliminating the need for an on-premise bridge or video-capture device. All Alibi Cloud VS solutions leverage Eagle Eye’s ultra-secure, high availability Tier 4 Data Centers, featuring end-to-end data encryption, built-in 3x data redundancy, and continuous delivery of the latest cyber-security updates.
